

FBI NATIONAL COMMON OPERATIONAL PICTURE: **SWATTING**

Virtual Command Center
SECURING THE NATION THROUGH RESPONSIBLE INFORMATION SHARING

Fusion Integration and Secure Real-Time Law Enforcement Virtual Collaboration

- **WHAT:**
 - OPE National Common Operational Picture (NCOP). This is a Virtual Command Center (VCC) for SWATTING events nationwide.
- **WHEN:**
 - Operational 1 May 2023
- **PURPOSE:**
 - To create a real-time common operational picture of swatting events from beginning of incident to closeout for awareness, trends identification, and collaboration.
- **PARTICIPATION:**
 - Open to any law enforcement agencies and fusion center partners who have access to [LEEP](#) and wish to participate in tracking and sharing information regarding SWATTING calls and incidents in respective jurisdictions.
- **EDUCATION & VIRTUAL TRAINING:**
 - VCC is supported by a team of Liaison Specialists who provide virtual (and/or in-person) training and operational support to requesting agencies. A 24/7 Help Desk also provides continuous assistance to LEEP/VCC users as needed.
 - Additionally, from the VCC home page on LEEP, you can find a complete resources page with various VCC user guides for self-paced virtual learning. They also offer a "Public Practice" training VCC from the VCC home page, which is available for all users to navigate through an active VCC, create practice entries, etc.
